

MIHAIL N. KOLOUNTZAKIS

Professor

Dept. of Mathematics and Applied Mathematics,
University of Crete,
Voutes Campus,
700 13 Iraklio,
GREECE

TEL +30 2810360615 (home), +30 2810393834 (office) • FAX +30 2810393881
E-mail: kolount AT gmail.com

(where all publications can be found online)

January 2018

PERSONAL

Born on 30 May 1966 in Iraklio (Heraklion), Greece. Married to **Maria Loukaki**. One son (Nikos) and one daughter (Ioanna).

CURRENT POSITION

- Professor, **Dept. of Mathematics and Applied Mathematics, Univ. of Crete**, Greece.

EDUCATION-EMPLOYMENT

8/2006 - present	Univ. of Crete	Professor
2013 - 2015	Univ. of Crete	Professor and Chair of the Department
1/2007 - 5/2007	Georgia Inst. of Technology	Visiting Professor
6/2000 - 7/2006	Univ. of Crete	Associate Professor
8/2004 - 5/2005	Georgia Inst. of Technology	Visiting Associate Professor
10/1999 - 5/2000	Univ. of Crete	Visiting Associate Professor
12/1998 - 10/1999	Hellenic Air Force	Military service
Fall 1998-99	Univ. of Illinois at Urbana-Champaign	Visiting Assistant Professor
1997-1998	Univ. of Crete	Visiting Assistant Professor
1996-1997	Univ. of Illinois at Urbana-Champaign	Visiting Assistant Professor
1994-1996	School of Math., Inst. for Advanced Study, Princeton NJ	Member
1989-1994	Stanford Univ.	Ph.D. in Math. (advisor P.J. Cohen)
1989-1991	Stanford Univ.	MSc in Mathematics
1988-1989	Univ. of Crete	Graduate student in the Math. Dept.
1984-1988	Univ. of Crete	B.Sc. in Computer Science

MATHEMATICAL INTERESTS

(1) Harmonic Analysis and its Applications

Applications of harmonic analysis to geometric and number-theoretic problems • Extremal problems concerning trigonometric polynomials and positive definite functions
• Bases consisting of complex exponentials $e^{2\pi i\lambda \cdot x}$ (orthogonal bases, Gabor bases, Riesz bases, frames)

(2) Additive Number Theory

Density of $B_h[g]$ sets and of additive bases • Sum-free sets • Additive complements • Effective algorithms in Number Theory.

(3) Applications of Probability Theory

Mostly to Harmonic Analysis and Number Theory • Turning probabilistic (existential) arguments into efficient algorithms.

(4) Theoretical Computer Science

PhD Thesis (June 1994; advisor **P.J. Cohen**)

PROBABILISTIC AND CONSTRUCTIVE METHODS IN HARMONIC ANALYSIS AND ADDITIVE NUMBER THEORY.

TEACHING EXPERIENCE**University of Crete:**

Calculus (undergraduate)

Linear Algebra (undergraduate)

Analysis (undergraduate)

Programming (in C, Fortran, Python) (undergraduate)

Harmonic Analysis (undergraduate)

Functional Analysis (undergraduate)

Approximation Theory (undergraduate)

Real Analysis (undergraduate)

Complex Analysis (undergraduate)

Discrete Mathematics (undergraduate)

The Problem Seminar (undergraduate)

Group Theory (undergraduate)

Introduction to Computing (undergraduate)

Probability Theory (undergraduate—also as an online-only course)

Parametric Statistics (undergraduate)

Formal Languages and Introduction to Computability (undergraduate)

Stochastic Processes (undergraduate)

Multivariable Calculus for the Dept of Materials Science (undergraduate)

Number Theory (undergraduate)

Real Analysis (graduate)

Stochastic Processes (graduate)

Randomized Algorithms (graduate)

Probability Theory (graduate)

Stanford University:

Calculus (as graduate student)

Univ. of Illinois:

Linear Algebra

Combinatorial Mathematics

Multivariable Calculus

Introduction to Real Analysis

Georgia Inst. of Technology:

Multivariable Calculus

STUDENTS

Nikos Andrianos, Master's Thesis (Fall 2010-11), on **The hydrogen atom**.

Nikos Chatzikostantinou, diploma thesis (Spring 2013-14) on **Entropy methods in Combinatorics**.

Anastasios Hondros, Master's Thesis (Spring 2008-09), on **Probabilistic methods in combinatorics and number theory**.

Dimitris Kalopsikakis, diploma thesis on **The Probabilistic Method**, (Spring 2015-16).
Nikos Konstantinidis, diploma thesis on **The use of generating functions and asymptotic enumeration in the study of evolution of RNA structures**. (Fall 2012-13)
Ioannis Konstantoulas, diploma thesis on **Random matrices: determinant and invertibility**. (Spring 2007-08), and Master's Thesis (Spring 2008-09) on **Tilings**.
Dimitra Maniou, Master's thesis (January 2018) on **Primality testing**.
Georgios Mavrogiannis, Master's thesis (Spring 2018).
Panagiotis Mavroudis, PhD thesis (March 2014) on **Approximation and extremal problems about positive definite functions**.
Nikos Poursalidis, Master's thesis (Spring 2018).
Costas Rabalakos, Master's thesis on **Quantum Computation**. (Spring 2003-04)
Maria Reppa, diploma thesis on **Network flow**. (Spring 2003-04)
Konstantinos Seretis, diploma thesis on **Linear Programming and Duality**, (Fall 2016-17).
Vangelis Xyloyannis, Master's Thesis (Summer 2008-09), on **Linear algebra methods in combinatorics**.

TALKS/CONFERENCES:

I have spoken (or presently will speak) at the following conferences/workshops:

- (1) Workshop on Emerging Applications of Probability, IMA, Minneapolis, MN, September 1993 (contributed talk).
- (2) Special Session on Harmonic Analysis, 886th AMS meeting, College Station, TX, October 1993 (invited).
- (3) Symposium On Discrete Algorithms (SODA), Washington DC, January 1994 (refereed conference).
- (4) Workshop in Additive and Combinatorial Number Theory, CUNY, March 1995 (invited).
- (5) Int. Conf. Analytic Number Theory, Univ. Illinois Urbana-Champaign, May 1995 (invited).
- (6) Harmonic Analysis from the Pichorides Viewpoint, Univ. of Crete, Greece, July 1995 (invited).
- (7) DIMACS workshop on Combinatorial Number Theory, February 1996 (invited).
- (8) Illinois Number Theory Conference, April 1997 (one of four invited lectures).
- (9) Workshop on the interface of Probability and Number Theory, May 2000, Univ. of Illinois (invited).
- (10) Workshop on Applied Mathematics, July 2000, Univ. of Crete, Greece.
- (11) Euroconference on Discrete and Algorithmic Geometry, August 2000, Anogia, Crete, Greece.
- (12) Hellenic conference on Mathematical Analysis, October 2000, Xanthi, Greece.
- (13) Rajchman-Zygmund-Marcinkiewicz Symposium, October 2000, Bedlewo, Poland.
- (14) Second Göteborg Conference in Harmonic Analysis and Partial Differential Equations, Göteborg, Sweden, June 2001.
- (15) Workshop on Fourier Analysis and Convexity (invited mini-course), June 2001, University of Milano-Bicocca.
- (16) Workshop on Periodicity and Quasi-periodicity, June 2002, Renyi Institute, Budapest (invited).
- (17) Combinatorial and Number-Theoretic Methods in Harmonic Analysis, Spring 2003, Erwin Schrödinger Institute, Vienna (invited).
- (18) Théorie des Nombres et Probabilités, November 2003, CIRM, Marseille (invited).
- (19) Special program in Harmonic Analysis, April-July 2004, Centro de Giorgi, Pisa (invited).
- (20) 7th International Conference on Harmonic Analysis and Partial Differential Equations, El Escorial, Madrid (Spain), June 21-25, 2004 (invited).
- (21) Workshop in Real Analysis, Harmonic Analysis and Applications to PDE, Oberwolfach, Germany, July 3-9, 2005 (invited).

- (22) 3rd Meeting for Young Researchers in Analysis, Karlovasi, Samos, Greece, September 16-18, 2005 (invited).
- (23) Interface entre l'analyse harmonique et la theorie des nombres, 17-21 October, 2005, CIRM, Marseille (invited).
- (24) Complex and Harmonic Analysis: an international conference, Thessaloniki, Greece, May 25 - 27, 2006 (invited).
- (25) Analysis, Number Theory and Logic: Honoring Paul Cohen on his 72nd birthday, Stanford University, September 14-17, 2006 (invited).
- (26) Illinois Number Theory Fest, Univ. of Illinois at Urbana-Champaign, May 16-20, 2007.
- (27) Second Workshop on Extremal Problems in Fourier Analysis, Renyi Institute, Budapest, 18-23 September 2007 (invited).
- (28) Problems in Analysis 2007, Iraklio, Crete, Greece, October 5-7, 2007 (organizer).
- (29) Analytical and Combinatorial Methods in Number Theory and Geometry 2007, Iraklio, Crete, Greece, October 22-26, 2007 (organizer).
- (30) Clay-Fields Conference on Additive Combinatorics, Number Theory, and Harmonic Analysis, Fields Institute, Toronto, April 5-13, 2008 (invited).
- (31) 12th Panhellenic Conference in Mathematical Analysis, Univ. of Athens, May 15-17, 2008 (plenary talk).
- (32) Problems in Analysis 2008, Samos, Greece, September 26-29, 2008.
- (33) Harmonic Analysis in Samos, 22-25 September 2009, Univ. of the Aegean, Karlovassi, Samos, Greece (plenary talk).
- (34) Complex and Harmonic Analysis, Archanes, Univ. of Crete, Sep 2-5 2009.
- (35) 3rd Workshop in Fourier Analysis, Budapest, Sep 17-23 2009.
- (36) Harmonic Analysis in Samos, Karlovassi, Sep 21-25 2009.
- (37) Euclidean Harmonic Analysis, Nilpotent Lie Groups and PDEs, Scuola Normale, Pisa, Mar 1 - Apr 30 (intensive period).
- (38) 13th Panhellenic Conference in Mathematical Analysis, Univ. of Ioannina, May 28-29, 2010.
- (39) Three days in Analysis for young researchers, Univ. of Athens, Nov 26-28, 2010.
- (40) 14th Panhellenic Conference in Mathematical Analysis, Univ. of Patras, May 18-19, 2012.
- (41) 4th Workshop on Fourier Analysis and Related Fields, Budapest, Aug 26-30, 2013.
- (42) Polyhedra, Lattices, Algebra, and Moments, NUS Singapore, Jan 7-16, 2014.
- (43) Double journée sur les pavages en mathématiques, informatique et musique, Montpellier, Sep 26-27, 2014.
- (44) Canadian Math. Soc. meeting, Hamilton, ON, Dec 5-8, 2014.
- (45) Complex and Harmonic Analysis, Differential Equations, Numerical Methods, NTNU Trondheim, Jun 1-5, 2015.
- (46) Aperiodic order and signal analysis, NTNU Trondheim, Jun 8-12, 2015.
- (47) 5th Workshop on Fourier Analysis and Related Fields, Budapest, Aug 24-28, 2015.
- (48) Additive Combinatorics in Marseille, CIRM, Marseille, Sep 7-11, 2015.
- (49) 15th Panhellenic Conference on Mathematical Analysis, Heraklion, May 27-29, 2016.
- (50) Workshop on Discrepancy Theory, Varenna, Jun 12-18, 2016.
- (51) CIMPA 2017 - IX Escuela Santaló Buenos Aires, Jul 31 - Aug 11, 2017.
- (52) 6th Workshop on Fourier Analysis and Related Fields, Pécs, Hungary, Aug 24-31, 2017.
- (53) Mathematical Analysis in Athens - Katavolos and Nestoridis, Univ. of Athens, Dec 15-19, 2017.
- (54) Meeting on Sampling, uncertainty principles, and combinatorial methods in harmonic analysis, Bilbao, Jan 15-18, 2018.
- (55) Optimal and random point configurations, ICERM, Brown Univ., Feb 26 - Mar 2, 2018.
- (56) Mathematical Challenges of Structured Function Systems, ESI, Vienna, Mar 19-23, 2018.

(57) Frame Theory and Exponential Bases, ICERM, Brown Univ., Jun 4-8, 2018.

I have given talks at the following departments:

- (1) Aristotle University of Thessaloniki, Greece
- (2) Caltech, USA
- (3) Cornell Univ., USA
- (4) CUNY, New York Number Theory Seminar, USA
- (5) Erwin Schrödinger Institute, Austria
- (6) Georgetown Univ., USA
- (7) Georgia Institute of Technology, USA
- (8) IBM Almaden Research Center, Computer Science, Theory Group, USA
- (9) Lehigh Univ., USA
- (10) National Technical Univ. of Athens, Greece
- (11) Oklahoma State Univ., USA
- (12) Renyi Institute, Hungary
- (13) Princeton University, USA
- (14) Scuola Normale Superiore, Pisa, Italy
- (15) Stanford Univ., USA
- (16) Technical Univ. of Crete, Greece
- (17) Technische Univ. Berlin, Germany
- (18) Texas A&M Univ., USA
- (19) Univ. Autonoma de Madrid, Spain
- (20) Univ. of Athens, Greece
- (21) Univ. of the Aegean, Greece
- (22) Univ. of Crete, Greece
- (23) Univ. of Georgia, Athens, GA, USA
- (24) Univ. of Illinois U-C, USA
- (25) Univ. Illinois at Chicago, USA
- (26) Univ. di Milano-Bicocca, Italy
- (27) Univ. Missouri, Columbia, USA
- (28) Univ. of Texas at Austin, USA
- (29) Univ. of Toronto, Canada
- (30) Univ. California Riverside, USA
- (31) Univ. Maryland College Park, USA
- (32) Univ. of Warwick, UK
- (33) Univ. of Wisconsin-Madison, USA
- (34) University College London, UK

ORGANIZED MEETINGS:

I have co-organized the following meetings:

- (1) *Frame theory and exponential bases*, ICERM, June 4-8, 2018.
- (2) *Analysis Days*, Heraklion, Crete, May 24-25, 2017.
- (3) *15th Panhellenic Conference on Mathematical Analysis*, Heraklion, Crete, May 27-29, 2016.
- (4) *Complex and Harmonic Analysis 2009*, Archanes, Crete, 3-5 September 2009.
- (5) *Analytical and Combinatorial Methods in Number Theory and Geometry 2007*, Crete, October 2007.
- (6) *Problems in Analysis 2007*, Crete, October 2007.
- (7) *Harmonic Analysis and Related Problems 2006 – HARP 2006*, Crete, June 2006.
- (8) *Two day meeting “Complex and Harmonic Analysis”*, Crete, May 2002.
- (9) *Two days of talks in Analysis for young researchers*, Crete, September 2001.
- (10) *Two days of talks in analysis*, Crete, June 2000.

ORGANIZED SEMESTER-LONG SEMINARS:

I have organized (alone or with others) the following semester-long seminars:

- (1) *Percolation and Disordered Systems*, Crete, Spring 99-00.
- (2) *Fourier Analysis Seminar*, Crete, Spring 00-01.

- (3) *Results in Theoretical Computer Science*, Crete, Spring 01-02.

LONG-TERM VISITS:

- (1) Caltech (May-June 1997, November 1998)
- (2) Renyi Institute (June 2002, July 2003)
- (3) Univ. di Milano-Bicocca (June 2001, October 2002)
- (4) Georgia Inst. of Technology (August 2004–May 2005)
- (5) Georgia Inst. of Technology (January 2007–May 2007)
- (6) Univ. of Rochester (June 2011–August 2011)
- (7) Hong Kong Univ. of Science and Technology (July-August 2016)

RESEARCH GRANTS:

- (1) Univ. of Crete (2017): Exponential bases and related problems.
- (2) “Aristeia II”: Greek Government Research Grant, 2014-2015.
- (3) Univ. of Crete (2007), Applications of Fourier Analysis to problems of discrete geometry.
- (4) INTAS 03-51-5070 (2004), Analytical and Combinatorial Methods in Number Theory and Geometry.
- (5) European Union Research Training Network HARP (Harmonic Analysis and Related Problems). July 2002 - July 2006.
- (6) INTAS Call 99 OPEN-1080 (Function spaces and harmonic analysis). June 2000-June 2002
- (7) National Science Foundation (USA) DMS 97-05775 (A Harmonic Analysis approach to problems of tiling). May 1997-December 1998

REVIEWER for the Mathematical Reviews and the Zentralblatt für die Mathematik.

REFEREE for the following journals:

- (1) Acta Arith.
- (2) Adv. Math.
- (3) Acta Math. Sinica

- (47) Trans. AMS

OTHER WORKING EXPERIENCE

- (1) **(1997-2002)** System administration for many Unix systems of the Department of Mathematics, U. of Crete.
- (2) **(December 1991)** Worked for Failure Analysis Associates of Menlo Park, CA. Developed user interface for a program that computes the motion of a fluid under the surface of the earth.
- (3) **(Summer 1991)** Research Assistant, Center for Integrated Systems, Stanford University (Prof. M. Lam).
Worked on parallel programming language JADE. Developed a parallel Finite Element code.
- (4) **(1990-92)** Center for Integrated Facility Engineering (CIFE), Stanford University (Prof. R. Levitt).
Developed CIFECAD, a system for the design of structures in 3D using predefined elements.
Developed educational software for Civil Eng. class on estimation.
- (5) **(1986-89)** and **(1997-present)** Horodomi, Iraklion, Greece.
Development of of Finite Element code for static analysis of 3D structures.
- (6) **(1986-88)** Image Analysis Laboratory, Department of Comp. Sci., University of Crete.
Mostly parallelization of algorithms for Image Processing. (See two earliest publications.)

EDITORIAL

Editor-in-chief for the Bulletin of the Hellenic Mathematical Society.
 Editor for the Online Journal of Analytic Combinatorics.
 Editor for Analysis Mathematica.

OTHER SKILLS

- A very competent computer programmer and an amateur system administrator (Unix).
- Fair knowledge of French and German (besides Greek and English).

PUBLICATIONS

Submitted for publication

- (1) Alex Iosevich, M.N.K., Yurii Lyubarskii, Azita Mayeli and Jonathan Pakianathan, *On Gabor orthonormal bases over finite prime fields*, submitted.
